Skills that travel with you.
Helping working adults and SMEs plan their next learning step in an uncertain AI future.

01

SDC Hackathon Xeno Force 2026

PROBLEM STATEMENT

39% of workers' existing skills are expected to change or become outdated by 2030.

63% of surveyed employers identify skills gaps as a major barrier to business transformation.

OUR PROBLEM STATEMENT

Working adults with limited learning time, money and information need a practical way to acquire these needed skills and which skills to learn first as job requirements change.

SMEs face the same decision across an entire workforce.

02

MEET AINA: EXPERIENCE WORTH BUILDING ON

AINA · ADMINISTRATIVE ASSISTANT

An illustrative worker persona—not a customer testimonial.

01 **Her starting point**

Existing workplace experience and transferable skills.

02 **Her constraints**

Limited weekly learning time and a small training budget.

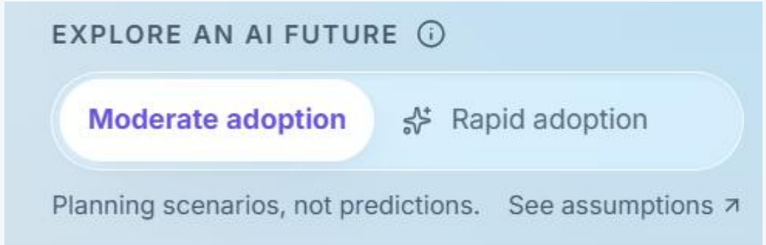

03 **Her decision**

Which next role can I work towards—and what should I learn first?

START WITH SKILLS USEFUL ACROSS MULTIPLE POSSIBLE FUTURES.

Compare two scenarios

Explore moderate and rapid AI adoption assumptions.

LEARN SHARED FOUNDATIONS FIRSt

Prioritise skills needed across the leading career options.

ADAPT THE LATER Steps

Recalculate recommendations as goals, constraints or evidence change.

04

What makes ArcTalent different?

A Learn first. Keep your options open.

B Build on existing experience

Identify transferable skills instead of treating a career change as starting over.

C Compare possible futures

Explore how recommendations respond to different AI adoption assumptions.

D Prioritise shared foundations

Start with skills useful across several leading career options.

F Understand the changes

See why a recommendation changes when new evidence is introduced.

WHAT SUCCESS WOULD MEAN FOR PEOPLE

A useful plan should lead to meaningful action.

For a working adult

Understand their transferable skills and choose a realistic next learning step.

For an SME manager

Identify shared training needs and explore internal career moves.

For our pilot

Measure plan understanding, course completion and demonstrated skill gains.

SDG ALIGNMENT

SDG 4 · RELEVANT SKILLS

SDG 8 · WORKFORCE DEVELOPMENT

SDG 10 · MORE ACCESSIBLE LEARNING PATHWAYS

TRUST IS PART OF THE PRODUCT

TRANSPARENT GUIDANCE

KEEP PEOPLE IN CONTROL

Users review suggested skills and choose their destination.

SEPARATE ASSISTANCE FROM CALCULATION

AI helps interpret and explain; the planning engine calculates scores and schedules.

MAKE UNCERTAINTY VISIBLE

Label simulations and distinguish planning estimates from actual outcomes.

THANK YOU
