SDC HACKATHON 2026: REPLIT PROOF OF USE (POU)

Team Name: Xeno Force

Project Name: ArcTalent

Selected Domain: Domain 1 (The Aiversecity Future-Ready Workforce Domain)

Live Deployment URL: https://arc-talent--emmanuelheng.replit.app/

Replit Project URL: https://replit.com/@EmmanuelHeng/ArcTalent

Replit Runtime Branch: https://github.com/MantouOP/ArcTalent/tree/replit-runtime

Summary of Replit Utilization:

- Complete full-stack Next.js 16 (App Router) + React 19 + TypeScript production deployment on Replit.

- All 32 unit tests and 14 production API integration checks verified inside the Replit environment.

- Autoscale deployment active in the Asia region, serving custom route handlers for matching heuristics and market signals.

- Zero secrets or credentials committed; all environment keys configured in Replit Secrets.

Verification Screenshot (Live Deployment on Replit):
